Contents

1   ML Refresher example notebooks

These notebooks are inspired by the content of the fantastic book "Hands-On Machine Learning with Scikit-Learn, Keras, and TensorFlow: Concepts, Tools, and Techniques to Build Intelligent Systems 2nd Edition" by Aurélien Geron. This book is a goldmine that you should buy.

2   Environment setup

We provide a conda environment configuration that defines all the dependenies needed to run these example notebooks. To create a new conda environment simply type:

```
conda env create -f=environment.yml
```

2.1   Installing coda

```
wget https://repo.anaconda.com/miniconda/Miniconda3-latest-MacOSX-x86_64.sh -O ~/minico
bash ~/miniconda.sh -b -p $HOME/miniconda
```

Verify the installation by executing

```
conda env list
```
